Report of the Superintendent: District Updates

Dr. Rodrigues recognized the work Ms. Kathy Provost, Assistant Superintendent, has done during this unusual time and the support she has received from Ms. Cathy Kilcoyne.

Ms. Provost gave an update on the work that has been done to date:

Consistent communication has been sent to families as we have received new guidance from DESE (3/12/20, 3/23/20, 3/6/20, 3/27/20, and 4/3/20). We will continue to send communication as new information presents itself. At times, the DESE guidance was not clear cut and superintendents across the state were making different decisions. This has caused some frustration due to comparisons being made between districts.

Communication Plan

At virtual faculty meetings last Tuesday, principals rolled out the Communication Plan. Teachers were given documents with guidelines for communication with and to keep track of all the families they are emailing or calling. These guidelines for questions included checking in with how students are doing physically and emotionally, asking if students are able to access materials online or having difficulty with internet access, and giving families information for the Hudson Public Schools plan for food distribution if the need for food came up. Teachers also asked about how each family would like communication to look like going forward. The district was given parameters from our legal counsel and the Hudson Education Association approved the plan before it was rolled out to teachers. Call logs have been given to staff and principals are collecting information so needs can be addressed as they come up.

The number of families that have been successfully contacted so far are:

Quinn Middle School 82% of families

Forest and Farley Elementary Schools 94% of families

Mulready Elementary School ~ 96% of families

At Hudson High School, we are still trying to contact about 150 families.

The school secretaries are collecting and collating information so we know which families may need copies of things.

Staff has been asked to contact families two times per week if the family is amenable to that. Families received a letter from principals detailing the plan and adjustments will be made as needed. At the elementary schools, a wave video was created to let students know how much they are missed and principals are creating daily morning announcements and posting them on their websites.

Ms. Wendy Anderson, EL Director, has been coordinating with our parent liaisons to complete translations and reach out to families. Ms. Anderson has taken the recommendations from DESE to make sure we are working with our English Language Learners in a way that will continue to support their language needs. She created a detailed document that outlines what all of our teachers will need to do to support these students and will be sharing this with them in the coming days.

Remote Learning Plans

The commissioner created new guidelines last week for remote learning, which we have followed to create these new plans. We worked with the curriculum directors, instructional coaches and principals to customize plans for the elementary, middle and high school levels. The plans are based on developmental level, the ability to create thematic activities to keep students engaged, and the feasibility of delivering across multiple courses in the high school. HEA reviewed the plans and they were discussed with all staff at planning meetings. The district decided to keep the communication plan and the remote learning plans separate, as we felt it important to establish good communication with families and assess their needs before discussing the enhanced remote learning plans. DESE also requested that we post a letter to parents which talks about remote learning on the District website. We posted a letter for parents on Friday, April 3rd with the important information parents need regarding remote learning. Commissioner Riley gave directives that remote learning is not synonymous with online learning, can take place in a multitude of ways, and includes helping students engage with resources in their everyday lives. Districts must be conscious of increased screen time. The commissioner's recommendation is that schools support students to engage in meaningful and productive learning for approximately half the length of a regular school day. We expect this learning to take place via a combination of educator-directed learning and student self-directed learning. The remote learning plans will be placed on the website for families once translations are complete.

Ms. Provost thanked the administrative staff, curriculum directors, elementary coaches, and technology department for their hard work during this time.

Mr. Smith asked about the expectation of what teacher interactions would look and feel like. Ms. Provost stated the plan is to have teachers reach out twice a week. These interactions could be checking in on how students are accessing materials online, or could be a little lesson on something and giving possible alternate ways to do things. Discussion ensued about what form the interaction would take.

Mr. Smith asked about interaction online. Ms. Provost stated that right now we would be using google meet at the 5-12 level. She said there has been discussion about the elementary level but there is a need to understand the equity issue. There also have to be parameters for the google meet established.

Discussion ensued about group interactions.

Mr. Smith asked what accommodations will be made for Special Education.

Ms. Cathy Kilcoyne, Director of Student Services, gave a timeline of dates and guidance and directives issued by DESE and the Federal Government. During this time, we have provided enrichment activities and monitored closings at collaborative placements. On March 21, the federal government released guidance that special education services should be provided. On March 26, DESE held a meeting with Special Education Directors discussing the need for special education services, IEP team meetings and timelines. The district's special education law firm provided a training and gave us guidance on procedures and letters for special education services. After these were created, we met with SEPAC to discuss the process of communicating with parents and met with school principals and special education staff to talk about what remote learning entails. Parent letters were sent home about services and virtual team meetings. The special education teachers have started to contact parents regarding services. Special Education coordinators will be contacting parents about annual reviews with the intent to begin these the week after vacation.

Ms. Kilcoyne went on to say DESE states that services for students need to be flexible. We are doing check ins and needs assessments. Our special education teachers can provide some accommodations for work and help students with scheduling.

Ms. Kilcoyne stated there has been discussion around Grid C services. The services cannot and will not be provided the way they are written in the IEP. We will try and find what parents want. Once the teacher has spoken with families, the special education directors and coordinators are available to document what services are needed. Parents have the right to not accept any of these services. We have worked with HEA and the Special Education department to provide them with things they have asked for in terms of how to get started with parents.

Dr. Weksner asked if there has been conversation on how to get infrastructure in place to utilize telehealth for OT, PT and Speech services. Ms. Ellen Schuck, Director of Technology, is working to get HIPAA compliance with google meet. The individual service providers are working on gateways to their professional tele presence.

Discussion ensued about the state requirements and the rolling back of the restrictions.

Mr. Smith asked if we are expecting this to continue past early May. Discussion ensued.

Dr. Rodrigues stated that we are living day by day. With the peak of the virus in the next week or two, everything we hear leads us to believe this closure will be extended. He went on to say we cannot move beyond what DESE tells us we can do. He went on to say we have been discussing the what ifs with respect to if we do not return to school.

Mr. Smith asked if there was an update on MCAS and graduation. Dr. Rodrigues stated there are no updates, but it has been a topic of conversation among superintendents. The legislature has given the commissioner autonomy to cancel or postpone MCAS. Dr. Rodrigues stated that the district also needs to look at things like grades and GPA.

Ms. Tousignant Dufour asked what supports and professional development teachers are given to support distance learning. Ms. Kathy Provost stated that Ms. Ellen Schuck and her team are helping with the technical aspects of google meet. She went on to say we are asking teachers to go to a site with good lessons on digital citizenship.

Dr. Rodrigues gave an update on Kindergarten registration. Currently we have 99 completed registrations. Out of these 99, 70 are regular K registrations and 29 are dual language

registrations. Additionally, we have 13 partial registrations of which 10 are regular and 3 are dual language. We also have 19 students returning from our PK or Hubert programs and 40 students on the census who have not contacted us yet.

Ms. Ryan asked if we know where the thirty students that applied for the dual language are located. Dr. Rodrigues stated he would get this information to the committee.

V. Matters for Discussion:

- a) Old Business
- b) New Business
 - 1. Discussion of Finance and Operations

Ms. Patricia Lange, Executive Director of Finance and Operations gave the following updates:

Food Service Program

Week 1 42 breakfast and lunches picked upWeek 2 141Week 3 258Week 4 expecting over 650

Last week, the district changed the food delivery schedule. We will now deliver 2 days of meals on each Monday and Wednesday and 3 days of meals on each Friday. She noted that a big change happened when DESE approved reimbursement. The district can now feed any child in the district, ages 0-18, regardless of whether they attend Hudson Public Schools or not.

Payments to Vendors

Ms. Lange stated she has been meeting with her counterparts at MASBO and, there has been a lot of discussion about payments to our vendors in particular transportation. The goal is to keep the transportation vendors viable so that when we return to school they

will be available for us. There is a conflict with Massachusetts General Law 41:56, which states that the school committee or town accountant has to state that services have been rendered. There is language in the Education Stabilization bill that encourages us to pay our vendors and provides relief to help pay for transportation. Currently within the MASBO group, all districts that use the same vendor are trying to make a cooperative decision on whether and what to pay the vendor. There are 40 districts using First Student Transportation. The guidance from the Department of Revenue advises districts to look at their contracts. If we negotiate an amendment to our contract, we will comply with the Massachusetts Department of Revenue.

Mr. Tracy asked if we anticipate a district to district negotiation or one negotiation with all 40 districts that have First Student. Ms. Lange said two of the larger districts have offered to get more information. Discussion ensued about the percentage to be paid and having language in the amendment that the drivers continue to be paid.

Mr. McDowell asked if we have an understanding of the breakdown between personnel and equipment costs. Ms. Lange stated that they have told her that the variable costs are 20% and fixed costs are 80%. Discussion ensued. Ms. Lange stated that we need more information and financial statements.

Ms. Lange stated that we continue to pay Collaborative Tuitions. The guidance is that these are an extension of the school district. We are waiting on more guidance for the private day tuitions. We do not have any issues with contracted services, as these are pay as services are rendered.

Mr. Maston was asked if it was necessary to discuss Chartwells. Ms. Lange stated we do not and their employees have been furloughed.

VI. Matters for Action:

- a) Old Business
- b) New Business
 - 1. <u>Approval to negotiate a temporary contract amendment with</u> <u>First Student Transportation due to the COVID 19 school</u> <u>closure</u>

Dr. Rodrigues confirmed that any negotiation would be brought back to the committee for approval.

A motion to approve the negotiation of a temporary contract amendment with First Student Transportation due to the COVID 19 school closure was made by Mr. Smith and seconded by Mr. Tracy.

The vote was taken by roll call.	
Mr. Maston	yes
Mr. Smith	yes
Mr. Tracy	yes
Ms. Ryan	yes
Mr. McDowell	yes
Ms. Tousignant Dufour	yes
Dr. Weksner	yes
On a vote of 7-0, the motion passed.	

VII. Items of Interest to the School Committee

The meeting was called to order by Committee Chair, Glenn Maston.

II Matters for Action:

Vote on a 3-year Employment Contract for Mr. Daniel Gale to Serve as Director of Finance and Operations for the Period Commencing July 1, 2020

Mr. Maston gave some background and a review of the hiring process. This included a schedule given to the committee by Dr. Rodrigues on posting, screening and interviews. On March 10, four candidates were interviewed and three finalists were selected. These finalists were then interviewed by Dr. Rodrigues. School Committee Executive Session was held on April 7 and the committee authorized Dr. Rodrigues to negotiate with Mr. Gale on their behalf.

Dr. Rodrigues thanked the committee for accommodating his request for a special session to approve the contract. He stated that this had been a very good process with several great candidates with diverse backgrounds. He went on to say Mr. Gale will be a great addition to the cabinet and is excited to welcome him to Hudson.

Began planning for communication Began food distribution plans	Systematic communication plans • SEL, academic, food needs identified	
Planned for enrichment activities- based on closure guidelines	Remote learning plans created and started	
Services not required if district providing enrichment-based for all students	Guidelines for Special Education /EL services and Team meetings	

What is Remote Learning?

Remote learning is not synonymous with online learning. Remote learning can take place in a multitude of ways, including by helping students engage with resources in their everyday lives and in the natural world around them.

Remote learning also provides unique opportunities to further engage students in the arts or interdisciplinary work. Finally, we must be conscious of the effects of increased screen time and seek balance between learning through technology and remote learning that happens offline to support students' curiosity and understanding" (Commissioner Riley, 3/26/20).

Goals for Remote Learning

- 1. Social emotional connection for students families, and staff. Physical and Mental Health of all.
- 2. Continue to engage students in meaningful learning activities that are developmentally appropriate and accessible to all learners.
- 3. Create consistency across grade levels and buildings for equitable access for all families.

Key Ideas

- X Each student's situation is unique; each educator's situation is unique
- **X** We want to be flexible and adaptable
- X Remote learning is very different from classroom learning
- X Focus on access for all students
- X We should do the best we can given our circumstances

What is happening for our Hudson Families?

STUDENTS	FAMILIES	STAFF
Worry, anxiety, social isolation	Worry, anxiety, social isolation	Worry, anxiety, social isolation
Developmental / learning needs	Balancing work, children at home, multiple jobs/spouse working from home	Many have children at home/spouse working from home
Special Education / EL	Potential language barrier	Special training / new technology
Access to technology	Access to technology	Access to technology
Home support	Parents are not trained teachers	Physical access to curricular materials
Balancing different teacher expectations	Communication from several teachers	Physical access to students
Space at home / environmental changes	Space at home/ environmental changes	Space at home/ environmental changes
Family member who may be sick	Worries around basic needs	Family member who may be sick
Lost identity	Family member who may be sick	Learning a new way to teach

Our Goals...

- 1. Recognize we are in a time of crisis and may need to use a different approach.
- 1. Use a district-wide approach in order to:
 - Ensure that we can effectively coordinate support for students and ensure access to the curriculum.
 - Coordinate our approach to lessen the burden on educators, special educators, EL teachers and related services to try to adapt to many different ways of doing business.
- 1. Recognize when it's too much during a very stressful time!

How will we do this?

X Provide as much flexibility as possible for children, teachers, and families.

X Provide predictability for children and families.

X Provide consistency among classrooms to provide safety nets / collaboration for teachers and make the work manageable.

X Connect students and educators to each other in real time whenever possible.

X Ensure that we can all sustain this work while we need to work apart.

Expectations for Educators

- Outreach with families
- o Answer emails
- Provide feedback to students on work
- Learn digital tools
- Collaborate with colleagues
- Collaborative meetings with School staff (as needed)
- Grade level meetings
- Special Educators/ EL/ Related Service meetings
- Attend 504 and IEP meetings (Regular workday but, with flexibility)

Roles of Special Educator, EL Educator, Counselor, School Psychologist, School Adjustment Counselor, OT, PT, SLPs

- X Participation and engagement with Director/Assistant Director of Student Services regarding Roles of Special Educator, EL Educator, Counselor, School Psychologist, School Adjustment Counselors, OT/PT, SLP, BCBA
 X Support students and families with strategies that support learning and
- coping at home, focusing on self management and social skills
- X Contact families to assess the needs of students and families and develop a plan of IEP services and modalities to provide to students via remote learning. These remote services may include sending materials/packets/projects to students, modification and accommodation of work, telephonic instruction and communication, videos, consultation with parents.
- X Document remote learning services to students with IEPs, in concert with other providers, and in accordance with telehealth guidelines for their specific discipline

X Share these plans with the Special Education Coordinators who will memorialize the services in the N1 (Narrative Description of School District Proposal) of the IEP.

X Special Education Coordinators will reach out to parents to coordinate annual review meetings for IEPs missed and coming up during the school closure to be held remotely.

X Collaborate with classroom teachers, special educators, other related service staff, and outside providers to work in teams as needed to ensure student access to remote learning.

X Reach out directly to families to connect them with school and other resources.

- **X** Community resources/supports as needed.
- **X** Participate in various grade-level, department, and Team meetings.

Role of Instructional & EL Coaches

- X Attend CPT / faculty / ILT meetings as needed.
- X Collaborate with all elementary grade level teams regarding remote learning plans.
- X Continue to remotely coach all staff.
- X Work with building principals to finalize elementary plans to be submitted.
- X Community resources / support as needed.

Role of Reading and Math Specialists

- X Attend department and school staff department meetings.
- X Provide feedback on remote learning plans to ensure students have equitable access.
- X Collaborate with each other to provide district consistency.
- X Connect with their students as needed to continue to provide support for equitable access to remote learning activities.

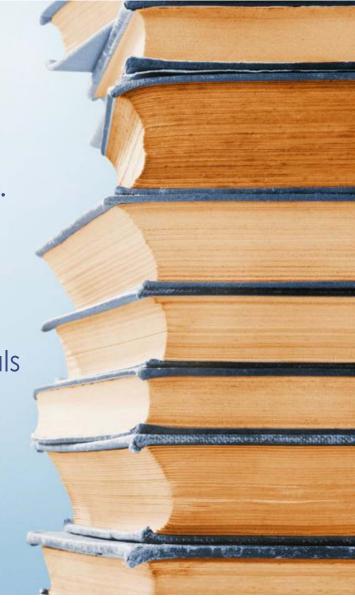

Role of Specialists (Visual Arts, Performing Arts, Wellness/PE)

- X Attend weekly department and school staff meetings.
- X Create discipline specific resources - videos, links, activities - to share with students/core content colleagues.
- X Representatives will also contribute to inter-disciplinary grade-level projects and activities for remote learning plans.

Role of Library/Media Specialists/Technology

- Attend school staff meetings/ Team meeting.
 Assist educators with available Remote Learning approved tools including: Digital Presentation Tools, Assistive Technologies, Video Tutorials, K-12 Online Resources, and Safe online Searches, etc.
- Coordinate with Reading Specialists/Principals to promote reading and reading resources available.
- Collaborate with Director of Technology to share tools and resources with the Remote Learning Planning Teams.
- Support Technology needs of the district.

Role of Paraeducators

X Attend faculty /grade level department meetings as requested.

X Connect with their Special Education liaison/ regular education teacher on appropriate role with student supports (as requested).

X Continue to access online courses for professional growth (Master Teacher).

Students who are difficult to engage

- **X** Explore reasonable and available options for support.
- X Calibrate your expectations for participation and engagement accordingly.
- X Document your attempts to reach out.
- X Enlist support from the student's counselor and building administration.
- X Remember that there are equity challenges we won't be able to fully solve or mitigate to our satisfaction during closure.

Mandated Reporter

If you hear or see something that concerns you...

- **X** follow the same protocol you would if you were in school.
- X Contact your building administrator immediately with your concerns.
- X If it is an emergency, call 911 or contact the Hudson Police non-emergency line (978) 562-7122.

Commissioner's Communication

I know that we still have further to go to make remote learning work smoothly for all students, and we are working with various stakeholders to help get public school students the technological resources they need. We want to help you make remote learning as easy and successful as possible.

I view our response to COVID-19 as having four phases:

1. The initial school closures, with a focus on students' and families' immediate needs, such as safety and food;

2. The initial remote learning recommendations, when we did not know how long schools would be closed;

3. The remote learning update that will come later this week, knowing that we will not return to school this school year; and

4. Re-opening school, a process that we hope will happen in the coming months.

local planning efforts, especially as districts and schools make plans to manage an extended closure. Maintaining connections between school staff and students is paramount, particularly for the most vulnerable members of our school communities.

At this time, districts and schools must also work to adopt a remote learning model:

- Nothing can replace the inperson schooling experience, and we should not expect that remote learning can replicate the traditional school day.
- At the same time, with school closures now extended, districts, schools, and communities have an obligation to engage students in meaningful and productive learning opportunities through an appropriately structured educational program.

Remote learning is not synonymous with online learning.

"Remote learning can encompass a wide variety of learning opportunities. While technology can be a supportive tool, districts and schools should also consider ways that student learning can continue offline. This could include exploring the natural world, activities to support students' local communities (with appropriate social distancing) and engaging hands-on projects and artistic creations that stem from students' own passions and experiences" (Commissioner Riley). o Health, safety, and wellness are our top priorities.

o Schools should be mindful of equity concerns and work to reduce the potential disproportionate impact on our most vulnerable populations.

o We are committed to maintaining connections between school staff and students and helping all students continue their learning their needs and meeting with their individual Principal Advisory Councils/ Teams to discuss students in need. Wayside clinicians also providing supports.

4/2 Remote Learning Plan and rollout to all families.

Working with teachers, schools created individual remote learning plans that were based on recommendations from DESE and took into consideration developmental needs, internet and device access (or no access), and social-emotional needs.

**In conference call with commissioner, it was recommended that plans be created in teams in case some members would be unavailable to contribute based on family or health needs.

HHS & QMS- plans were created by department and disseminated via Google Classroom. A reinforcement of skills previously taught was still the focus. Students and teachers at this level had accounts all set up during the school year and the transition was more seamless.

Elementary – SPRING themed learning boards were created with input from all grade level teachers based on the above criteria, as well as the standards that were taught up to the date of closure. Decision was made to create these across all three elementary buildings to provide equity and the team approach as recommended by DESE. Activities can be done without computer access and were meant to be open-ended to be repeated as needed. A letter accompanying these newer boards was sent to parents to explain how the boards could be used.

Thematic Project-Based Learning Plan

All learning is based on a review of already taught and learned units, lessons, concepts and focus on reinforcing skills already taught this school year and applying and deepening these skills.

Remote learning is not synonymous with online learning. Remote learning can take place in a multitude of ways, including by helping students engage with resources in their everyday lives and in the natural world around them. Remote learning also provides unique opportunities to further engage students in the arts or interdisciplinary work. Finally, we must be conscious of the effects of increased screen time and seek balance between learning through technology and remote learning that happens offline to support students' curiosity and understanding.

Remote learning can encompass a wide variety of learning opportunities. While technology can be a supportive tool, districts and schools should also consider ways that student learning can continue offline. This could include exploring the natural world, activities to support students' local communities (with appropriate social distancing), and engaging hands-on projects and artistic creations that stem from students' own passions and experiences.

Examples of remote learning tools include large group video or audio conference calls, 1:1 phone or video calls, email, work packets, projects, reading lists, online learning platforms, and other resources to effectively engage with students. These tools could be used to deliver lessons, provide individual student support, provide resources (including instructional material and student assignments), connect students to each other and the teacher, and provide feedback on student work. Districts and schools should ensure all online learning platforms meet confidentiality and student privacy standards.

<u>Our Work</u>

Each grade level (elementary working across the 3 schools) will work over the next week to provide activities that are connected by a theme for all students to access. Every department will have the ability to add appropriate assignments with appropriate personnel making modifications and accommodations (special education, ELs and related service providers)

2. Discussion of High School Grade Calculation and Student Transcript for 2019-2020

Memorandum

To: Marco Rodrigues

From: Jason Medeiros

Date: April 24, 2020

Re: Hudson High School Remote Learning Grading System & Transcript Implications

Hudson High School Remote Learning Grading System & Transcript Implications

What will the Four Terms look like?

- 1) Students will acquire a letter grade for T1, T2, and T3.
- 2) The dates for Term 3 grades will be January 23-March 13.
- 3) Students can make up work for T3 (assignments that had been due before school closure but not yet submitted) up until May 8.
 - If students already submitted make up work and their grade was lowered, they will have the opportunity to resubmit.
 - Otherwise, makeup work will only be used to improve a student's grade.
 - In order to help students manage makeup and remote learning expectations, teachers will prioritize outstanding assignments that help determine mastery of T3 course objectives.
- 4) Students will receive a Pass/Fail (P/F) for T4.
 - In order to earn a "Pass" for T4, students must earn a "Pass" on 70% (7 out of every 10) of their Remote Learning assignments from April 27-June 22 (For seniors, this concludes on May 29).
- 5) There will be no final exams for any class, grades 8-12.

What constitutes a "Pass" on an assignment during remote learning?

- With the support of a common rubric, teachers will evaluate whether or not student performance on remote learning assignments demonstrates proficient understanding of the required skills and concepts. A student will "pass" an assignment by meeting a proficient standard on a majority of an assignment's objectives.
- 2) There will be no late penalties. Teachers will accept work when they receive it. Deadlines we communicate are "pacing guides" that will help students and families manage their time across a workweek.

What if a student was failing a course heading into the extended school closure?

- 1) Similar to makeup work, students will have the opportunity to demonstrate mastery of previously learned skills in T1 & T2.
- 2) Teachers may consider work assigned from April 6-17 (the start of our remote learning), as well as any subsequent remote learning assignments, as evidence of such mastery. Otherwise, teaching

teams will work together to develop benchmark assignments that give students this opportunity. If students complete these assignments and demonstrate proficiency, we will not go back and change a student's letter grade, but we will award the student a "Pass" for the end-of-year grade if they "pass" T3 and T4.

What will the end-of-year grade and transcript look like?¹

- 1) Students will receive a year-end grade that comprises T1-T3 as well as T4.
- 2) T4 will be calculated as follows:
 - A "Pass" will be awarded a score of 95.
 - A "Fail" will be awarded a 60.
 - Why are we awarding points?
 - It creates an incentive to participate.
 - It minimizes the potential impact of an "F" for T4 in that a T4 "F" will not determine failure for the year.
- Semester-long courses that started at the beginning of T3 will be marked as either Pass or Fail (P/F) on the transcript. They will not receive a letter grade.
- 4) Students enrolled in AP classes who do not want to participate in the "at home" AP testing platform prepared by the CollegeBoard will be allowed to request a full refund and will not have the course title altered on the HHS transcript.
- 5) There will be no Horace Mann or Honor Roll distinction for T4. T3 grades will be the basis for these honors for the second semester.
- 6) Valedictorian and Salutatorian will be awarded based on GPA through the students' first seven semesters of high school, excluding grades in T3 and T4 in SY19-20.
- 7) For year-long courses, the four terms and mid-term grades will be weighted as follows:oT1: 30%T2: 30%Mid-Term: 5%T3: 20%T4: 15%

What if a student faces extenuating circumstances that make remote learning challenging?

We have tried to adopt grading and transcript practices that favor participation in remote learning. We attempt to strike a balance between holding students harmless for the impact of the pandemic on their grades and transcript while also maintaining the integrity of our report cards. We understand that students may face barriers to completing remote learning assignments and will work on a case-by-case basis to accommodate such circumstances.

- #5 Reflects a change in subsection "Honor Roll Criteria" (p.5)

¹ References to Changes in the 2019-2020 Student Handbook (Academic Information, p. 4-6):

^{- #2} Reflects a change in subsection "Grading Policy" (p. 5-6)

^{- #4} Reflects a request to waive the requirement to take an AP test for transcript designation in subsection "Grade Point Average and Rank in Class" (p. 5)

^{- #6} Reflects a change in subsection "Valedictorian and Salutatorian" (p. 4), eliminating the 8th and final semester from the GPA calculation for these awards for the class of 2020

 Approval to reschedule Grade 9 Washington D.C. overnight field trip from 4/28/2020-5/2/2020 to 9/29/2020-10/3/2020

Hudson High School

Office of the Principal 69 Brigham Street Hudson, Massachusetts 01749

Memorandum

To:Marco RodriguesFrom:Jason MedeirosDate:April 16, 2020

Re:

As a result of this spring's extended school closure, Hudson High School is seeking School Committee approval to move the 9th Grade trip to Washington D.C. into next fall. We have collaborated with our travel company, Hemisphere Travel, to create an opportunity for students to participate in the trip in the fall of 2020 as 10th graders. We are requesting to hold a comparable version of the planned trip for these students to be held from Tuesday, September 29 to Saturday, October 3, 2020.

Request to change overnight field trip: 9th Grade Washington D.C. Trip from Spring 2020 to Fall 2020

We polled the families currently enrolled in the trip as to whether they approved to have Hemisphere travel retain their funds in the event a fall trip was approved or to be reimbursed both through Hemisphere and the pre-purchased travel insurance for a significant amount of their investment. Approximately 50 families (60%) of the group expressed interest in the trip.

This trip serves as an opportunity for these students to have their D.C. experience, and it cannot be opened to participants who did not elect to register for this spring's trip. The smaller group will require fewer chaperones, and the trip will be less disruptive to the classes being held at HHS as a result. Also, adding these participants to next spring's cohort would not be feasible because of the added need for chaperones that it would create, as well as the spring trip's proximity to what has historically been the dates for the 10th grade Math MCAS administration. We will still pursue a 9th grade trip in the Spring of 2021. All of these plans would be dependent on the permissibility of travel given the current restrictions to the size of public gatherings. Additionally, all of the current insurance and cancellation provisions families currently have access to will continue to be in effect.

Thank you for your consideration.
